When she woke up, she found herself on an island where she had never been, surrounded by the smell of hibiscus flowers. "What a beautiful place, but where am I?" Unknown to Hello Kitty, Badtz-Maru played a trick on her and she is now in another world. She soon realized this and panicked! "Oh no! What am I going to do?" She is always cheerful, but now tears are coming to her eyes. "I must get back!" She wipes her tears and starts walking to find the way out. Will she be able to get back to her relaxing vacation?

RULES OF THE GAME

Explanation of the screen

Different Cubes

Cubes which disappear

When 3 cubes of the same color line up vertically or horizontally (not diagonally!), they will disappear. You can earn more time by making cubes disappear and if you do it in a chain reaction, you get even more time.

Cubes that stay

Cubes made of bricks will not disappear even if you put 3 of them in a row. But the ones without a pattern and a matching color which are connected to them will disappear when lined up properly.

Hello Kitty can get hurt

When a cube falls on her head quickly or when she falls more than 4 steps at a time, Hello Kitty gets hurt and cannot move for a little while. After running she does get tired out and will stand still for a moment to catch her breath.

The disturbing characters!

Badtz-Maru

Whenever Hello Kitty gets an item or a cube falls on his head quickly, he gets upset and kicks the cube directly to his left or right. He's a trouble-maker-watch out for his mischief!

Pandaba

At regular intervals and when a cube falls on her head, she gets upset and turns 4 cubes 90 degrees, either on her right or left side.

Hanamaru

He just stays still in the same place, mostly a nuisance.

Get the items!

Guide Hello Kitty to the items, to clear the stage. The stage is cleared when she gets all the items on the screen. When you choose the "hard" game level, you have to get the items in the order shown on the screen.

Score indicator

The score is shown after you clear each stage. You can go on to the next stage by pushing the 0 button. If your score reaches a certain secret point, you will receive an extra Hello Kitty!

Clearing a land

When you finish all three stages in each land, you have cleared that land and may proceed to the next. The "Selection" screen will be shown and you can choose the next land to go to with the directional buttons. Push the 0 button and the new land will appear.

Times up!

You will lose a Hello Kitty and have to restart the stage if... You cannot get all the items and run out of time, or the cubes are piled up to the top of the screen, or Hello Kitty falls off the bottom of the screen through a hole in the cubes. When there are no more Hello Kittys left, the game is over.

High Score

If your score is one of the top five, you will be able to enter your 3 letter initials into the High Score Screen.

How to save the data

The Save Screen will be shown each time you finish a land. With the memory card, you can save up to 3 different lands you have passed by choosing SAVE AND CONTINUE. This will take one block of memory.

PUZZLE PRACTICE

- ★ Hello Kitty cannot go up more than 1 step at a time. If an item is set where she cannot reach it, maneuver the cubes to make a clear path for her.
- ★ If you make cubes disappear, the cubes on top of those will fall. Be careful!
- ★ When playing VS, in **Free Play Mode**, you can let cubes fall on your opponent character's head quickly and make those cubes disappear. But you have to be careful as your character will faint when you do this.

Hints & Tips

- When Hello Kitty is about to fall, push the opposite directional button quickly. She will balance on the edge of the cube, without falling.
- With perfect timing, Hello Kitty can move onto the falling cubes! There is a stage where you need to master this technique in order to clear it!
- Even when Hello Kitty is falling several steps, she can get an item by touching it! When your time is almost up, you can get the last item by risking Hello Kitty! Even while the cubes are

disappearing when your time is up, you can still clear the stage if she touches the item.

TWO PLAYER MODE

Plug controller 1 and controller 2 into the PlayStation® game console. Choose 2P or VS on the Game Mode Select screen.

★ Rules for 2P

Same as single player mode, but the two of you play in cooperation to get all the items in each stage.

★ Rules for VS

(Only when playing in Free Play Mode)

Choose the stage with controller 1. The first player to get 5 of the 9 items wins. If you both get the same amount of items and time is up, the game ends in a tie.

★ You cannot play for time when you make cubes disappear in VS mode. Also you cannot put cubes on the top three steps of the screen nor can you block the cube opening of your opponent.

Your character will switch positions when a chain reaction happens more than twice in a row.

Hello Kitty Personal Data

and twin sister Mimi in London.
